

The team at Ruffles Lodge has joined forces with the professional facilitators at Corporate & Group **X**periences to create an exciting range of teambuilding activities and character-building challenges.

If you are looking for something to reward and stimulate your team and you want something more productive, more impressive and just that little bit different from the typically lazy 'drinks after work', then keep reading - we have a program just for you!

specifically for Ruffles Lodge

Engaging and productive team programs

Laser Clay Pigeon Shooting is a sport which can be enjoyed by everyone. Just like the real thing but totally safe and environmentally friendly. Players use a modified shotgun to fire an infra-red beam at clays that are launched from various points and angles. A module/scoreboard generates the shotgun 'bang' and when a player hits the target you hear the sound of a breaking clay.

A terrific **X**perience to complement any function, conference, wedding or party, day or night.

Laser Clay: Who will your sharp-shooter be?

You and your team are blindfolded and taken to a 'secret' location. When the blindfolds come off, you land in a setting where your team has just survived a simulated aircraft crash. Now in completely unknown territory, your team must complete a series of adventure challenges in order to make their way back to civilisation. This **X**perience can be purely fun or can be tailored to target leadership objectives.

This is a very rewarding team challenge (as seen on the Great Outdoors and Getaway).

Simulated Aircraft Adventure: who will survive?

A high energy, dynamic team program utilising the beautiful grounds around the Ruffles Lodge property. Your teams will compete in a fierce (but fun) head to head battle, accumulating points for each challenge completed.

Challenges could include medieval archery, giant catapults, water poles, elephant memory and many more.... a fun and rewarding **X**perience.

Ruffles Lodge Adventure: go head to head

Using digital cameras and latest technology GPS navigational aids, participants must search for and locate various check points and items of interest, taking photographs for evidence of their find. This dynamic **X**perience can be used as an 'ice-breaker' or a full days adventure.

Bushland Geocoaching covers a vast area of the Ruffles Lodge property and can incorporate activities, check points or even a mountain bike tour. The program can be tailored specifically to your team dynamics, fitness levels and overall objectives.

Bushland Geocoaching: seek and you shall find

You won't find a more magnificent location than Ruffles Lodge for your next company team-building and character-challenging retreat - and you won't get a more professional team than C & G Xperiences who will tailor a program to suit your particular group. They will take into account your team's dynamics, ages, fitness levels and your overall objectives.
